

To Whom It May Concern,I am writing to voice my objection to NAB's petition 04-160 that seeks to curtail certain aspects of XM satellite's ability to provide valuable information to me, a paying subscriber.

XM radio is THE best innovation to have come down the pike in years and any attempt to hamstring them from providing ALL their services is not something I, a person of voting age in the United States of America (with Freedom of Speech) appreciates.

I wish to continue to have the FREEDOM to listen to weather and traffic reports in all the various markets they offer. It is not necessary for the NAB or any other agency to dictate to me what I should or shouldn't be allowed to listen to.

I respectfully request that you reject this petition put forth by the NAB. It is an insult to thinking Americans.

Thank you for your kind indulgence in reading this.
